Locale	Petersburg
Project Financing	
LISC Investment Type/Amount	
	Grant \$20,000
Total Development Cost	\$2,400,000

1200 W. Washington St. - Before

## Project Highlights

The renovated 17,000 square foot facility will house their offices, classrooms, a library, 3 labs (art, computer, and construction), a kitchen and a conference room. The Battersea neighborhood is one of the areas identified in the Petersburg Community plan and one in which Pathways has been focusing the majority of their development. The efforts of Pathways have helped to jumpstart revitalization of the Battersea neighborhood. Additional reasons for the continued support of PUM are as follows:

- ❑ The project will allow PUM to impact a critical community that has faced disinvestment.
- ❑ Help leverage public and private dollars.
